

Here is the preliminary roster for the 2018/19 LYG. The names are in no particular order. Congratulations to all those who were selected! Many of you will find yourselves in the sections that you auditioned for and some of you were assigned to a different section. We made this roster after a careful consideration in what section each player would best contribute to the group. This division is not final, as for some pieces the ensemble will be divided in five or six parts and some players will move to another section. If anyone has a question about their part assignment, feel free to contact me! Also, if you didn't make it this time, there will be chances to join another time. Feel free to contact me!
